Democratic Chances Brighten in the Hawkeye State.

Will Make Henry Gnins in Colorndo, Idaho, and Washington-German-Americans in the Northwest Against the Administration

The understanding among politicians in listrict of Iowa makes it probable that is Joe R. Lane, who was elected to the Fifty-sixth Congress by a vote of 18,790 against 17,508 for John J. Ney, Democrat. The Second district comprises the counties of Clinton, Iowa, Jackson, Johnson, Muscatine, and Scott. It is said here that the indications point strongly to the suc-

In 1894 Democracy was weak and Judge Hayes, who had represented the district for many years, had aroused the displeasure of the German element, George M. Curtis, of Clinton, an exceptionally strong candidate, was named against him and was elected by a plurality of 436. In 1896, with the 16 to 1 plank in the Chicago platform, the district re-elected Mr. Curtis by a plurality of 3,329. In 1898, Mr. Curtis declaring leaves and the control of th by a purality of 3,329. In 1888, Mr. Curtis declining longer to serve in Congress, the Republicans named Joe R. Lane, of Davonport, another exceptionally strong candidate. He was elected, but by the reduced plurality of 1.282. Last fall in the State election Governor Shaw carried the district by the stender plurality of 45. Mr. White the Democratic services. White, the Democratic candidate for Governor, a man with a pronounced free aliver record, did not call out enthusiastic sup-port in the district.

As Scott County goes the district is likely to go, and Scott County is likely to rally to the support of Mr. Vollmer, its own citizen, against Captain Rumple. The "Davenport Democrat" two
years ago supported Lane, but this year
it will exert itself to the utmost to bring
about the election of Mr. Vollmer. Mr.
Vollmer did not seek the nomination,
having peremptorily declined the use of
his name and he visided only offer. his name, and be yielded only after a large petition, signed by his reighbors, and friends and by the Democrats throughout the district, was presented to The character of the names on this petition would seem practically to ensure

Mr. Vollmer's election At Republican Bendquarters.

At Republican headquarters it is said that the chances of McKinley and Roosevelt in the trans-Missouri States are fair, The Republicans profess to believe that they will carry Colorado in spite of the fact that four years ago that State gave 129,000 plurality for Bryan. McKinley had but 22,000 votes, while Bryan had 152,000, a proportion of more than six to one. It is claimed that there has been a rapid is changed that there has been a rapid change of sentiment in Colorado. Idaho would seem as hopelers a proposition as Colorado. In 1896 McKluley received 6,000 and Bryan 23,000 votes in Idaho, a proportion of four and a half to one.

In Wyoming the Republican prospects may be better. In 1896 Mr. Bryan earried the State by a plurality of 1892 and sleep

the State by a plurality of 583, and since Wyoming has gone Republican. In 1898 the Republican candidate for Congress had a plurality exceeding 2,000, and the Legis-lature now has a heavy Republican major-ity. Washington gave 12,000 plurality for Bryan in 1896, but elected two Republican members of Congress in 1898 by about 4,000. Last June Oregon increased its Re-

to do what is right. They are thinking about the railroad question and they will not long submit to the control of the executive council by railroad interests."
